

LYMAN BRIGGS COLLEGE

Elizabeth H. Simmons, DEAN

The Lyman Briggs College is a residential college that bridges the science and humanities through interdisciplinary teaching and research. It provides students with a fundamental core science education in mathematics, chemistry, biology, and physics. Additionally, the core program addresses historical, philosophical, and societal concerns and consequences of modern science, technology, the environment, and medicine. Advanced undergraduate courses in the student's major are taken in the respective departmental units of the College of Natural Science, College of Engineering, College of Agriculture and Natural Resources, and the University at large. The majority of Lyman Briggs students pursue programs leading to advanced graduate study in the natural sciences, or professional programs related to medicine, dentistry, veterinary medicine, allied health, education or law. Many other students plan to enter careers in teaching at the secondary level, science writing, product representation, industry, or government service upon completion of their Bachelor of Science degree.

As a residential college, Lyman Briggs College has classrooms, laboratories, faculty offices, academic advisor offices, and administrative offices located in Holmes Hall, where all first year and many upper-level Lyman Briggs students live and learn. Because of this residential organization, students are able to develop a strong living-learning community identity by integrating academic and personal development, with faculty, staff and their peers in residence. Students are encouraged to balance their academic lives with social, cultural, athletic, service-learning, and leadership opportunities on campus and in the greater East Lansing community.

Students admitted to Michigan State University are admissible to Lyman Briggs College based initially on application date. There are no additional academic or program requirements for freshman admissions. Enrollment in the college is limited; therefore students are encouraged to apply early. Applicants should indicate their intention to become a part of the Lyman Briggs College on the Michigan State University Application for Admissions. If a student has already submitted an application and would like to apply to Lyman Briggs College, she/he should contact the Office of Admissions directly as early as possible.

Students work closely with their academic advisors and faculty in developing an individualized academic plan. All students enter the program as 'no major' status and may declare a major as early as summer orientation or by the time they have earned 56 credit hours.

Students who are enrolled in the environmental biology/microbiology and microbiology coordinate majors in Lyman Briggs College may elect the Specialization in Food Processing and Technology. For additional information, refer to the *Specialization in Food Processing and Technology* statement in the *Department of Food Science and Human Nutrition* statement in the *College of Agriculture and Natural Resources* section of this catalog.

Admission as a Freshman to Lyman Briggs College

Any student who meets the general requirements for admission to the university as shown in the *Undergraduate Education* section of this catalog may enroll in Lyman Briggs College, pending available space.

Transfer Students

All students in good academic standing in Lyman Briggs College may transfer at any time to other programs at Michigan State University for which they are eligible, in order to accommodate changing academic needs and interests.

Students who wish to transfer into Lyman Briggs College should contact the Academic and Student Affairs Office to make an appointment to consult with the Admissions Coordinator. Space in Lyman Briggs College is limited.

UNDERGRADUATE PROGRAM

The Lyman Briggs College program leads to the Bachelor of Science Degree.

Requirements for the Bachelor of Science Degree in Lyman Briggs College

1. The University requirements for bachelor's degrees as described in the Undergraduate Education section of this University catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Lyman Briggs College. Students who are enrolled in the College of Natural Science may complete the alter-

native track to Integrative Studies in Biological and Physical Sciences that is described in item 1. under the heading Graduation Requirements in the College statement. Certain courses referenced in requirement 3. below are equivalent to courses in the alternative track and, therefore, may be used to satisfy the alternative track.

The completion of the Lyman Briggs College mathematics and statistics requirement [referenced in item 3.c.(4) below] may also satisfy the University mathematics requirement.

The completion of Lyman Briggs 133 or one of the approved alternatives [referenced in requirement 3.a.(5)(a) below] may also be counted toward the University Tier I writing requirement.

The University's Tier II writing requirement for the Major and Coordinate Majors in Lyman Briggs College is met by completing Lyman Briggs College 492 and one of the following courses: English 473A; History 425; Lyman Briggs College 332, 333, 334,

- 335, 336, 355. Those courses are referenced in items 3. a. (5) and 3. a. (6) below. The requirements of Lyman Briggs College for the Bachelor of Science degree, refer-
- enced in item 3. a. below. The credits earned in certain courses referenced in requirement 3. below may be counted toward College requirements as appropriate.

The following requirements of Lyman Briggs College for the Bachelor of Science de-3. gree:

- CREDITS CORE PROGRAM 46 to 55 (1) **Biology:** One of the following **groups** of courses (8 to 10 credits): (a) Lyman Briggs 144, 145.
 (b) Biological Science 181H, 191H, 182H, 192H.
 (c) Biological Science 161, 171, 162, 172. (2)
 - Chemistry: One of the following groups of courses
 - (8 to 10 credits):

 - (8 to 10 credits):
 (a) Lyman Briggs 171, 171L, 172, 172L.
 (b) Lyman Briggs 171, 171L; Chemistry 143
 (c) Lyman Briggs 171, 171L; Chemistry 143,
 (d) Chemistry 141, 142, 161.
 (e) Chemistry 141, 143, 161.
 (f) Chemistry 141, 161, 251.
 (g) Chemistry 151, 152, 161.
 (h) Chemistry 181H, 182H, 185H. Mathematics and Statistics: One of the following groups of courses (6 to 8 credits):

 - (a) Lyman Briggs 118, 119.
 (b) Lyman Briggs 118; Statistics and Probability 231.
 (c) Mathematics 132, 133.
 (d) Mathematics 132; Statistics and Probability 231.

 - Mathematics 152H, 153H. (e)
 - Physics: One of the following groups of courses (4)
 - (6 to 8 credits):

a.

- (a) Lyman Briggs 273, 274.
 (b) Physics 231, 232, 251, 252.
 (c) Physics 183, 184.

- Physics 181B, 182B, 251, 252. Physics 231B, 232B, 251, 252. (d)
- (e)
- (f) Physics 183B, 184B.
- Physics 193H, 294H. (g)
- History, Philosophy and Sociology of Science: A total of 11 or 12 credits from the courses in groups (a), (b), and (c) below. In addition to completing one course from each of the three groups, the student must complete one of the following courses from group (b) or group (c): English 483; History 425; Lyman Briggs 332, 333, 334, 335, 336, 355.
 - (a) One of the following courses: Lyman Briggs 133; Writ-ing, Rhetoric and American Cultures 110, 115, 120, 125, 130, 135, 140, 145, 150, 195H.
 - One of the following courses: Lyman Briggs 331, 332, (b) 333, 334, 335, 336, 355.
 - One of the following courses: Lyman Briggs 330, 331, (c) 332, 333, 334, 335, 336, 355, 490E; English 473A; History 425.

Each of the following courses may be used to meet either requirement 3.a.(5)(b) or requirement 3.a.(5)(c), but not both of those requirements: Lyman Briggs 331, 332, 333, 334, 335, 355.

(6) Senior Seminar: Lyman Briggs 492 (4 credits) b. MAJOR or COORDINATE MAJOR. Each student must complete the requirements of a Major or a Co-

ordinate Major. The Major or Coordinate Major must be chosen

from the lists of options below. Both the Major or Coordinate Major and the related courses must be approved by the student's academic advisor. With the approval of the appropriate Lyman Briggs College Curriculum Coordinator or Undergraduate Direc-tor, courses other than those that are listed as requirements for a Major or Coordinate Major may be used to satisfy degree requirements.

Majors: Biology

Computer Science Earth Science Environmental Science and Management

Physical Science

History, Philosophy and Sociology of Science

- Coordinate Majors:
- (1) College of Agriculture and Natural Resources: Animal Science
 - Entomology Fisheries and Wildlife Food Science
- (2) College of Engineering: Computer Science Students are admitted to this Coordinate Major after they have reached junior standing and have met certain other requirements specified by Lyman Briggs College .
- (3) College of Natural Science:
 - Actuarial Science Astrophysics Biochemistry and Molecular Biology Biochemistry/Biotechnology Biological Science—Interdepartmental Biomedical Laboratory Science Chemical Physics Chemistry Computational Chemistry Computational Mathematics Diagnostic Molecular Science Earth Science-Interdepartmental Environmental Biology/Microbiology Environmental Biology/Plant Biology Environmental Biology/Zoology Environmental Geosciences Genomics and Molecular Genetics Geological Sciences Human Biology Mathematics Mathematics, Advanced Microbiology Neuroscience Nutritional Sciences Physical Science-Interdepartmental Physics Physiology
 - Plant Biology
 - Statistics Zoology

Majors

1. Biology..... a. A minimum of 30 credits from the courses listed below including:

CREDITS

30

- (1) MMG 302 ZOL 341 ZOL 355 (2) (a) Organismal and Population Biology
 (b) Students who complete Physiology 431 and 432 to satisfy requirement 1.a.(2) above must complete one of the following courses:

 ENT
 404
 Fundamentals of Entomology
 3

 PLB
 418
 Plant Systematics
 3

 PLB
 434
 Plant Structure and Function
 4

 PLB 441 Plant Ecology Students who complete Botany 414 and 415 to satisfy requirement 1.a.(2) above must complete (ii) one of the following courses: ZOL 306 Invertebrate Biology 4

		(b) Cellular, Molecular, and Developmental Biology
		LB 347 Advances in Applied Biology
		MMG 409 Eukaryotic Cell Biology
		MMG 421 Prokaryotic Cell Physiology3
		MMG 431 Microbial Genetics
		MMG 451 Immunology
~		
2.		r Science
	(1)	All of the following courses (24 credits):
		CSE 231 Introduction to Programming I
		CSE 260 Discrete Structures in Computer Science 4 CSE 320 Computer Organization and Architecture 3
		CSE 330 Algorithms and Data Structures
		CSE 410 Operating Systems
		LB 220 Calculus III
	(2)	At least two of the following courses (6 credits): CSE 420 Computer Architecture
		CSE 422 Computer Networks
		CSE 435 Software Engineering
		CSE 440 Introduction to Artificial Intelligence3 CSE 450 Translation of Programming Languages3
		CSE 452 Organization of Programming Languages 3
		CSE 472 Computer Graphics 3 CSE 480 Database Systems 3
3.		ence
	(1)	At least 14 credits in courses at the 300–400 level.
	(2)	At least 8 credits in earth science courses outside the Depart-
	(3)	ment of Geological Sciences. At least <i>one</i> course in each of the following 5 earth science
	(0)	areas (15 to 22 credits).
		(a) Astronomy and Astrophysics AST 207 The Science of Astronomy
		AST 207 The Science of Astronomy3 (b) Geology of the Solid Earth
		GLG 201 The Dynamic Earth
		GLG 321 Mineralogy and Geochemistry4 GLG 351 Structural Geology and Tectonics4
		GLG 361 Petrology (W) 4
		GLG 401 Plate Tectonics (W)4 GLG 481 Reservoirs and Aquifers3
		GLG 491 Field Geology – Summer Camp (W)6
		(c) Paleobiology GLG 431 Sedimentology and Stratigraphy (W) 4
		GLG 431 Sedimentology and Stratigraphy (W) 4 GLG 433 Vertebrate Paleontology 4
		GLG 434 Evolutionary Paleobiology4
		PLB 335 Plants Through Time
		GEO 203 Introduction to Meteorology 3
		GEO 401 Geography of Plants of North America
		GEO 402 Agricultural Climatology
		GEO 405 Weather Analysis and Forecasting 4 GLG 421 Environmental Geochemistry 4
		GLG 421 Environmental Geochemistry4 (e) Geomorphology
		CSS 470 Soil Resources 3
		GEO 407 Regional Geomorphology of the United States
		GEO 408 Soil Geomorphology Field Study 4
		Geography 206 and 206L, combined, may be substitu- ted for one of the courses listed above.
4.		inimum of 41 credits from the courses listed below including:
	(1)	One of the following groups of courses (8 or 10 credits):
		(a) LB 118 Calculus I
		STT 231 Statistics for Scientists
		MTH 133 Calculus II 4
	(2)	STT 231 Statistics for Scientists
	(4)	(24 to 26 credits):
		(a) Ecology:
		ZOL 355 Ecology 3 ZOL 355L Ecology Laboratory 1
		(b) Geology:
		GLG 201 The Dynamic Earth
		ENT 404 Fundamentals of Entomology

- Students who elect Sociology 452 must also complete Sociology 452L to meet requirement 4. a. (3) (a).
- 5. Physical Science. A minimum of 31 credits from the courses listed below including: (1) The following course: LB 220 Calculus III
 - 4 (2)At least 27 credits in chemistry courses, in physics courses, or in chemistry and physics courses approved by the student's academic advisor. At least 20 of the 27 credits must be in courses at the 300 level or above, and at least 14 of the 27 credits must be in either chemistry courses or physics courses and must meet the conditions specified below:

For students who elect to complete at least 14 credits in chemistry courses, at least 4 of the 14 credits must be laboratory credits at the 300-400 level.

For students who elect to complete at least 14 credits in physics courses, at least 6 of the 14 credits must be in modern physics, and at least 3 of the 14 credits must be laboratory credits.

studies courses approved by the student's academic advisor. Courses in the Lyman Briggs College CORE PROGRAM and Lyman Briggs 492 may not be used to satisfy this requirement. Courses outside Lyman Briggs College may be used to satisfy this requirement.

MINOR IN HISTORY, PHILOSOPHY AND SOCIOLOGY OF SCIENCE

The Minor in History, Philosophy and Sociology of Science, which is administered by Lyman Briggs College, is designed to increase students understanding of the epistemological foundations and ethical elements of science while learning more of the history of some areas of science and appreciating the complex ways that science is connected to other social institutions and practices.

The minor is available as an elective to students who are enrolled in a bachelor's degree program in Lyman Briggs College at Michigan State University. Students majoring in History, Philosophy and Sociology of Science in Lyman Briggs College are not eligible for the minor. With the approval of the college, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree. At least 12 unique credits counted towards the requirements for a student's minor must not be used to fulfill the requirements for that student's major.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in Lyman Briggs College.

Requirements for the Minor in History, Philosophy and **Sociology of Science**

CREDITS

Co	mplete	15 to 1	16 credits from the following:	
1.	Two of	f the fol	lowing courses (8 credits):
