ECONOMICS

EC

Department of Economics College of Social Science

201 Introduction to Microeconomics

Fall, Spring, Summer. 3(3-0) Not open to students with credit in EC 251H.

Economic institutions, reasoning and analysis. Consumption, production, determination of price and quantity in different markets. Income distribution, market structure and normative analysis.

Introduction to Macroeconomics 202

Fall, Spring, Summer. 3(3-0) Not open to students with credit in EC 252H.

Determinants of Gross National Product, unemployment, inflation and economic growth. National income accounting and fiscal policy. Aggregate demand, supply management and monetary policy.

210 **Economics Principles Using Calculus**

Fall. 3(3-0) P:M: MTH 133 or MTH 153H or MTH 126 Not open to students with credit in EC 201 or EC 202.

A combined microeconomics and macroeconomics course. Emphasis on topics of interest in engineering and management, such as discounting, costbenefit analysis, innovation, externalities, and the role of government regulation.

Microeconomics and Public Policy 251H

Fall, Spring. 4(4-0) Not open to students with credit in EC 301.

Theories of consumer behavior, production and cost. Output and price determination in competition and monopolies. Welfare economics, general equilibrium, externalities, and public goods.

252H **Macroeconomics and Public Policy**

Fall, Spring. 3(3-0) P:M: (EC 201 and EC 301) or EC 251H Not open to students with credit in EC 302.

Theory of national income, unemployment, inflation and economic growth and its application to economic analysis and policy.

Cooperative Education for Business Students 293

Fall, Spring. 1(1-0) A student may earn a maximum of 3 credits in all enrollments for this course. Interdepartmental with Accounting and Finance and Hospitality Business and Management and Marketing and Supply Chain Management. Administered by Marketing and Supply Chain Management. R: Approval of department.

Integration of pre-professional educational employment experiences in industry and government with knowledge and processes taught in the student's academic program. Educational employment assignment approved by the Department of Marketing and Supply Chain Management.

301 Intermediate Microeconomics

Fall, Spring, Summer. 3(3-0) P:M: EC 201 RB: EC 202 Not open to students with credit in FC 251H

Theories of consumer choice, production, cost, perfect competition, and monopoly. Welfare economics, general equilibrium, externalities and public goods.

302 **Intermediate Macroeconomics**

Fall, Spring, Summer. 3(3-0) P:M: EC 201 and EC 202 Not open to students with credit in EC 252H.

National income accounting. Determination of aggregate output, employment, price level, and inflation rate. Policy implications.

Comparative Economic Systems

Fall. 3(3-0) P:M: (EC 201 or EC 251H) and (EC 202 or EC 252H)

Characteristics and functions of economic systems. Alternative patterns of economic control, planning, and market structure. Theories, philosophies, and experiences associated with capitalism, socialism, and mixed economies.

Economics of Developing Countries

Spring. 3(3-0) P:M: EC 201 or EC 251H

Overview of economic patterns and policy issues of developing countries such as modern economic growth and structural transformation, state controls versus markets, poverty and human welfare, investments in human resources, and trade and industrialization.

Analysis of Economic Data

Fall, Spring. 3(3-0) P:M: (EC 201 or EC 251H) and (EC 202 or EC 252H) R: Not open to students in the Department of Accounting or Department of Finance or School of Hospitality Business or Department of Management or Department of Marketing and Supply Chain Management.

Sources of economic data. Techniques for presenting and summarizing economic data. Testing theories of economic behavior. Methods for forecasting in uncertain economic environments. Evaluation of current quantitative work in economics.

Money, Banking, and Financial Markets Fall, Spring, Summer. 3(3-0) P:M: (EC 201

or EC 251H) and (EC 202 or EC 252H)

Money markets and financial intermediation. Money, the Federal Reserve System, and monetary policy. Regulation of money markets.

Taxes, Government Spending and Public Policy

Fall, Spring, Summer. 3(3-0) Interdepartmental with Environmental Economics and Policy. Administered by Economics. P:M: EC 201 or EC 251H SA: PRM 335 Not open to students with credit in EC 435 or EC 436.

Economics of the public sector. Public goods, externalities, design and incidence of the tax system. Equity and efficiency effects of government programs.

340 **Survey of International Economics**

Fall, Spring, Summer. 3(3-0) P:M: (EC 201 or EC 251H) and (EC 202 or EC 252H) Not open to students with credit in EC 440 or EC

Comparative advantage. Costs and benefits of trade. International economic policies. Balance of payments. Foreign exchange markets. The international monetary system. Contemporary trade and international currency issues.

360 Private Enterprise and Public Policy

Fall, Spring, Summer. 3(3-0) P:M: EC 201 or FC 251H

Effects of antitrust, economic regulation, and other public policies on competition, monopoly, and other market problems in the United States economy.

380 **Labor Relations and Labor Market Policy** Fall, Spring, Summer. 3(3-0) P:M: EC 201 or EC 251H

Development, functions, legal framework, and eco-

nomic effects of unions and collective bargaining. Institutions and economic impacts of government programs. Minimum wages, workers' compensation, unemployment insurance, and antidiscrimination policies.

391 Special Topics in Economics

Fall, Spring. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. P:M: (EC 201 or EC 251H) and (EC 202 or EC 252H) R: Approval of department.

Special topics supplementing regular course offer-

401 **Advanced Microeconomics**

Fall, Spring. 3(3-0) P:M: EC 251H or EC 301

Economics of uncertainty and incomplete information. Game theory and theories of oligopoly. Transaction costs. Advanced topics in welfare economics, general equilibrium, externalities, and public goods.

402 **Advanced Macroeconomics**

Fall, Spring. 3(3-0) P:M: (EC 251H or EC 301) and (EC 252H or EC 302)

Consumption, investment, and monetary theories. The role of expectations. Theories of economic growth and cycles. Stabilization policies.

Economic Analysis of Russia and the 406 Commonwealth of Independent States

Spring of even years. 3(3-0) P:M: (EC 202 or EC 252H) and (EC 251H or EC 301)

Analysis of structure and performance of planning, transition economy, and post-transition economy in Russia and the commonwealth of independent states (CIS) with focus on micro foundations of macroeconomic outcomes.

Issues in the Economics of Developing 410 Countries

Fall. 3(3-0) P:M: (EC 202 or EC 252H) and (EC 251H or EC 301)

Topics in development economics, such as growth. technological change, structural transformation, poverty and inequality, investment in human resources, trade, international capital flows, and the political economy of policy formation and governance.

412 **Economic Analysis of Latin America**

Fall of even years. 3(3-0) P:M: (EC 202 or EC 252H) and (EC 251H or EC 301)

Population growth, agriculture, and urbanization. Dependence on primary exports and import protection. Inequality and populist-orthodox policy cycles. Hyper-inflation, international debt crises, and adjustments. United States policy interests and inter-

413 **Economic Analysis of Asia**

Spring of odd years. 3(3-0) P:M: (EC 202 or EC 252H) and (EC 251H or EC 301)

Development of agriculture, industry, labor markets, and trade in some of the following: India and South Asia, China, the Pacific Rim countries, and Japan. Productivity, income distribution, finance, and plan-

414 **Economic Analysis of Sub-Saharan**

Fall of odd years. 3(3-0) P:M: (EC 202 or EC 252H) and (EC 251H or EC 301)

African economic development in historical perspective. Contemporary development issues including agricultural policies, industrial development, foreign trade and aid, human resource investments, AIDS, and the political economy of economic and political policies and reforms.

420

Introduction to Econometric Methods
Fall, Spring. 3(3-0) P:M: (EC 202 or EC 252H) and (EC 251H or EC 301) and (MTH 124 or MTH 132 or MTH 152H) and (STT 315 or STT 421 or STT 430 or STT 441)

Specification, estimation, and interpretation of econometric models. Evaluation of current quantitative work in economics.

Advanced Econometric Methods

Spring of even years. 3(3-0) P:M: (EC 420) Panel data methods, instrumental variables, limited dependent variables, time series analysis, and other advanced topics.

425 Law and Economics

Fall. 3(3-0) Interdepartmental with Finance. Administered by Economics. P:M: EC 251H or FC 301

Application of economic analysis to the law. Property rights, takings, the Coase Theorem. The economics of regulation, crime and punishments, liability law, and public choice.

435 **Public Expenditures**

Fall. 3(3-0) P:M: EC 251H or EC 301 Expenditure theory. Objectives and rationale of government activity in the market system. Efficiency criteria in government decision-making. choice. Cost benefit analysis.

Public Revenues

Spring. 3(3-0) P:M: EC 251H or EC 301 Principles and theory of efficiency and the incidence of taxation. Income and sales taxes and other major revenue sources.

International Trade 440

Fall. 3(3-0) P:M: EC 251H or EC 301
Neoclassical and modern theories regarding trade patterns and commercial policies. Applications of theory to United States policy. Contemporary issues involving international trade of goods, services, and

441 International Finance

productive factors.

Spring. 3(3-0) P:M: (EC 251H or EC 301) and (EC 252H or EC 302)

Neoclassical and modern theories pertaining to balance of payments and exchange rate determination. Macroeconomic performance under alternative exchange rate regimes. Contemporary issues involving international monetary arrangements.

460 American Industry: Structure and Behavior

Fall, Spring. 3(3-0) P:M: EC 251H or EC 301

Market structure and performance. Empirical analysis of market definition, concentration, product dif-ferentiation, vertical integration, innovativeness, collusion, and entry deterrence.

480 **Analysis of Labor Markets**

Fall, Spring. 3(3-0) P:M: EC 251H or EC

Labor supply and demand. Human capital, search, migration, and labor turnover. Analysis of unemployment and wage growth. Structure of wages, including economics of discrimination.

Senior Seminar for Policy and Applied Economics Majors (W)

Fall. 3(3-0) P:M: (EC 251H or EC 301) and (EC 320 and completion of Tier I writing requirement) R: Open only to seniors in the Policy and Applied Economics major.

Capstone course for policy and applied economics majors. Reading and discussion concerning selected economics topics. Preparation and presentation of student research project.

Independent Study

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 3 credits in all enrollments for this course. P:M: (EC 202 or EC 252H) and (EC 251H or EC 301) R: Approval of department.

Research and reading course for students interested in doing independent work in economics under faculty supervision.

Advanced Topics in Economics

Fall, Spring. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. P:M: (EC 251H or EC 301) and (EC 252H or EC 302) and (MTH 124 or MTH 132 or MTH 152H) R: approval of department.

Advanced work in specialized topics of economics.

Economics of Poverty and Income 495 Distribution

Fall. 3(3-0) P:M: EC 251H or EC 301 Theory of the distribution of income and wealth. Concepts and measurement of welfare. Definitions of poverty. Effects of public and private programs on

Economics of Health Care

Fall of odd years. 3(3-0) P:M: EC 251H or EC 301

Economic factors in determining health care costs, utilization, quality, and efficiency. Demand and insurance. Comparative health care systems. Public policy issues.

Senior Seminar for Economics Majors 499

Fall, Spring. 3(3-0) P:M: (EC 251H or EC 301) and (EC 252H or EC 302) and (EC 420 and completion of Tier I Writing requirement) R: Open only to seniors in the Department of Economics.

Capstone course for economics majors. Reading and discussion concerning selected economics topics. Preparation and presentation of student research project.

Mathematical Applications in Economics

Fall. 3(3-0) RB: MTH 124 or MTH 132 R: Open only to master's students in the Department of Economics. Open only to graduate students in the Department of Agricultural Economics and doctoral students in the Business Administration major or approval of department.

Applications of mathematical tools in economic analysis. Matrix algebra, derivatives, partial derivatives, optimization, integration and linear differential equations.

805 Microeconomic Analysis

Fall. 3(3-0) R: Open only to master's students in the Department of Economics. Open only to graduate students in the Department of Agricultural Economics and doctoral students in the Business Administration major or approval of department. Not open to students with credit in EC 812A.

Microeconomic theory with calculus. Production, costs, demand, markets, general equilibrium and welfare theory.

Applied Microeconomic Analysis

Spring. 3(3-0) P:M: EC 805

Applications of microeconomic theory taken from public finance, labor economics, international trade, and industrial organization.

809 **Macroeconomic Analysis**

Spring. 3(3-0) P:M: EC 801 Not open to students with credit in EC 813A.

Closed- and open-economy macroeconomic theory with calculus. Inflation, unemployment, growth, business cycles, consumption, investment, and money demand. Policy debates and macroeconomic forecasting

Institutional and Behavioral Economics

Fall. 3(3-0) Interdepartmental with Agricultural Economics and Resource Development. Administered by Agricultural Economics.

Relationships among institutions, individual and collective actions, and economic performance. Public choice, property rights, and behavioral theories of firms and bureaucracies.

Mathematical Applications in Economics

Fall. 2(2-0) R: Open only to doctoral students in the Economics major or the Department of Agricultural Economics or the Business Administration major or approval of department. C: EC 812A concurrently.

Applications of mathematical tools in economic analysis for Ph.D. students. Matrix algebra, derivatives, partial derivatives, optimization, integration and linear differential equations.

The Structure of Economic Analysis

Fall. 2(2-0) P:M: EC 811A SA: EC 811 C: EC 813B concurrently.

Static and dynamic decision models in economics.

Concepts of equilibrium, stability, comparative statics and duality.

812A Microeconomics I

Fall. 3(3-0) C: EC 811A concurrently.

Consumption theory, including choice under uncertainty. Theory of production in perfectly competitive markets. General equilibrium in the presence of perfect competition. Efficiency properties of competitive equilibria.

Microeconomics II

Spring. 3(3-0) P:M: EC 812A

Introduction to social choice. Market failure, including externalities, public goods, imperfect information and market power.

Macroeconomics I

Fall. 3(3-0) R: Open only to doctoral students in the Economics major or the Department of Agricultural Economics or the Business Administration major or approval of department.

Static and dynamic macroeconomic models. Search asset pricing, new classical theories of business cycles and growth. Rational expectations and the government budget constraint.

813B Macroeconomics II

Spring. 3(3-0) P:M: EC 813A C: EC 811B concurrently.

New classical theories of business cycles and growth. Theories of price and wage rigidities, search, imperfect competition, and credit rationing in macroeconomic models. Asset pricing.

Economic Thought II

Spring. 3(3-0)

German and English economic historicism. Austrian and general equilibrium economics. Neoclassical economics. Institutionalism. Origins and development of Keynesian economics. History of economic thought in retrospect.

Introduction to Econometrics 818

Spring. 3(3-0) Interdepartmental with Agricultural Economics and Statistics and Probability. Administered by Economics. P:M: STT 430 R: Not open to doctoral students in the Economics major. SA: EC 820

The single equation regression model. Properties of least-squares estimators under various specifications. Multicollinearity, heteroskedasticity, correlation, and generalized least squares.

Economic Role of Government

Spring. 3(3-0)

The legal system and legal foundations of economic structure and performance. Property rights, the taking issue, and compensation.

Econometrics IA 820A

Fall. 3(3-0) Interdepartmental with Statistics and Probability. Administered by Economics. R: Open only to doctoral students in the Economics major or the Department of Agricultural Economics or the Business Administration major or approval of department.

Statistical tools for econometrics. Applications of statistical tools,including probability distributions, estimation, hypothesis testing, and maximum likelihood to econometric problems

Econometrics IB

Fall. 3(3-0) P:M: EC 811A and EC 820A The single equation regression model. Properties of least-squares estimators under various specifications. Multicollinearity, generalized least-squares, errors in variables, seemingly unrelated regressions.

Identification and estimation in simultaneous equa-

tions models.

Econometrics II 821

Fall. 3(3-0) Interdepartmental with Agricultural Economics and Statistics and Probability. Administered by Economics. P:M: EC 820A and FC 820B

Analysis of cross-sectional economic data. Qualitative and limited dependent variables. Probit, logit, tobit, and sample selectivity. Duration models. Count data. Analysis of panel data.

822 **Econometrics III**

Spring. 3(3-0) Interdepartmental with Agricultural Economics and Statistics and Probability. Administered by Economics. P:M: EC 820A and EC 820B

Dynamic models and time series data. ARMA models. ARCH models. Unit roots, cointegration and error correction. Rational expectations models.

Applied Econometrics

Fall. 3(3-0) P:M: (EC 820A and EC 820B) or (STT 430 and EC 818)

Problems of estimating models and testing hypotheses from economic theory. Applications of various econometric models to economic problems and policy analysis.

824 **Advanced Topics in Econometrics**

Spring of even years. 3(3-0) P:M: EC 820A and EC 820B and EC 821 and EC 822 R: Open only to doctoral students in the Economics major or approval of department.

Advanced study in a specialized topic in economet-

829 The Economics of Environmental Resources

Fall. 3(3-0) Interdepartmental with Agricultural Economics and Forestry and Park, Recreation and Tourism Resources and Resource Development. Administered by Agricultural Economics.

Economic principles related to environmental conflicts and public policy alternatives. Applications to water quality, land use, conservation, development, and global environmental issues.

830 **Advanced Macroeconomics and Monetary Theory**

Fall. 3(3-0) P:M: EC 812B and EC 813B General equilibrium models of monetary economies. Money and growth. Monetary and financial models of the business cycle. Hyperinflation. Bubbles, sunspots, cycles, and multiple equilibria.

Problems in Monetary Theory and Policy

Spring. 3(3-0) P:M: EC 813A and EC 820A Topics on macroeconomics with a strong applied emphasis.

835 **Public Expenditures**

Fall. 3(3-0) P:M: EC 812A

Allocative and distributional effects of public expenditure. Public goods and externalities. Selected topics in public expenditure analysis such as costbenefit analysis, fiscal federalism, mechanism design, public choice, and general equilibrium models.

836 **Public Revenues**

Spring. 3(3-0) P:M: EC 812A

Theory of taxation. Allocative and distributional effects of taxation, user charges, and deficit finance. Positive and normative aspects. General equilibrium models. Dynamic models. Issues of fiscal federal-

840 International Trade: Theory and Commercial Policy Fall. 3(3-0) P:M: EC 812A

Commodity composition of trade. Welfare and distributional effects of measures such as tariffs, quotas, and export subsidies. International economic policy. Regional and multilateral trade policy.

Exchange Rates and Capital Flows Spring. 3(3-0) P:M: EC 812A and EC 813A 841

The balance of payments statement. Mechanisms of balance of payments adjustment. Exchange rate determination. Domestic policies under alternative exchange rate regimes. Regional monetary integration. The international currency system.

Advanced Topics in International Trade Spring. 3(3-0) P:M: EC 812A and EC 812B and EC 840

Selected topics in international trade.

844 **Open Economy Macroeconomics**

Fall. 3(3-0) P:M: EC 813A and EC 813B Balance of payments. Dynamic models of the open economy. Effects of uncertainty on international financial markets. Global issues in economic growth. Money and exchange rates in models with sticky or flexible prices. Nominal price rigidities.

850 Growth, Development, and Human Resources

Fall. 3(3-0) P:M: EC 812A

Theoretical and empirical models of the microeconomics of development, focusing on household and individual behavior related to investment in human resources and its consequences.

Microecon Dynamics in Develop

Spring. 3(3-0) P:M: (EC 805 and EC 809) or (EC 812A and EC 813A)

Theoretical and empirical models of the microeconomics of development, focusing on land, labor, credit and insurance markets. Analysis of household and individual responses to risk, dynamic decisions with respect to savings, consumption and labor supply, and models of learning. EC 851 is designed to be a continuation of EC 850.

Market Structure and Behavior

Fall. 3(3-0) P:M: EC 812A

The consequences of concentration and entry conditions. Theory of the firm as it relates to size, scope, integration, and motivation. Static market behavior. Antitrust treatment of cartels and mergers.

Dynamic Market Behavior and Performance

Spring. 3(3-0) P:M: EC 812A

Theoretical and empirical treatments of dynamic aspects of industry behavior. Strategic behavior, predation, and antitrust treatment. Research, development, and innovation. Government controls. Public utilities and regulation.

880 Labor Economics I

Fall. 3(3-0) P:M: EC 812A and (EC 820B or FC 818)

Labor supply and measurement of the labor force. Labor demand. Mobility, turnover, and migration. Equalizing wage differentials. Trade union growth, goals, bargaining and effects.

Labor Economics II

Spring. 3(3-0) P:M: EC 812A and (EC 820B or EC 818)

Theories and empirical evidence of the human capital model and alternatives to the human capital model. Economics of discrimination and gender differences in labor markets. Employment and distributional effects of minimum wages.

895 **Graduate Reading in Economics**

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course.

Faculty guided research projects.

911 Strategic Behavior in Economic **Environments**

Fall. 3(3-0) P:M: EC 812B

Topics in cooperative and non-cooperative game theory. Applications include: oligopoly and bargaining theories, strategic voting and principal agent models, endogenous coalition formation, signalling, strategic trade, and auctions theories.

Risk, Uncertainty and Information

Spring. 3(3-0) P:M: EC 812A and EC 812B RB: EC 812A

Effects of risk in economic environments. Topics include: expected utility theory, risk aversion, stochastic dominance, mean-variance models, state preference models, general equilibrium models with risk, information theory.

Economics—EC

923 Advanced Environmental and Resource Economics

Fall. 3(3-0) Interdepartmental with Agricultural Economics and Forestry and Park, Recreation and Tourism Resources and Resource Development. Administered by Agricultural Economics. RB: AEC 829 and EC 812A

Advanced economic theory of environmental management and policy. Treatment of externalities and market and non-market approaches to environmental improvement. Topics in conservation and sustainable economic growth. Applications to research and policy.

925 Advanced Natural Resource Economics

Spring. 3(3-0) Interdepartmental with Agricultural Economics and Forestry and Park, Recreation and Tourism Resources and Resource Development. Administered by Agricultural Economics. RB: EC 812A and AEC 829 and FOR 866 SA: AEC 991H

Economic theory of managing nonrenewable and renewable resources, including optimal use, the incentives for use under decentralized markets, and public policy design. Analysis of the co-evolution of economic and ecological systems.

950 Research Seminars in Advanced Topics in Economics

Fall, Spring. 1(1-0) R: Open only to doctoral students in the Economics major.

Current research topics in applied economics.

992 Advanced Topics in Economics

Fall of odd years. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. RB: EC 811A and EC 811B and EC 812A and EC 812B and EC 813B and EC 820B R: Open only to doctoral students in the Economics major or approval of department.

Advanced work in a specialized topic in economics.

999 Doctoral Dissertation Research

Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to doctoral students in the Economics major.

Doctoral dissertation research.
