PACKAGING

PKG

School of Packaging College of Agriculture and Natural Resources

Principles of Packaging

Fall, Spring, Summer. 3(3-0) SA: PKG 210 Packaging systems, materials and forms and their relationship to the needs and wants of society.

Packaging with Glass and Metal

Fall, Spring. 3(3-0) P:M: (CEM 141 or CEM 151 or LBS 171) and (PHY 231 or PHY 231B or PHY 231C or PHY 183 or PHY 183A or PHY 183B or PHY 193H or LBS 271) and (PKG 101 or concurrently) SA: PKG 320, PKG 325

Physical and chemical properties of glass and metals and their applications to packaging.

Packaging Decision Systems (W)

Fall, Spring. 3(2-2) P:M: (MTH 116 or LBS 117 or MTH 114 or MTH 124 or MTH 132 or LBS 118 or MTH 152H) and completion of Tier I writing requirement R: Open to sophomores or juniors or seniors in the School of Packaging. SA: PKG 415

Application of computers to communicate, analyze and solve problems in the management, specification, production, and testing of packaging systems.

Packaging with Paper and Paperboard

Fall, Spring. 4(3-2) P:M: ((PKG 221 or concurrently) and PKG 101) and (MTH 124 or MTH 132 or LBS 118 or MTH 152H) and (CEM 143 or CEM 251 or CEM 351) and (STT 200 or STT 201 or STT 315 or STT 351) R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging. SA: PKG 325

Physical and chemical properties, manufacture, conversion, and use of wood, paper, paperboard, and related components in packaging. Design, use, and evaluation of packages.

Packaging with Plastics

Fall, Spring. 4(3-2) P:M: ((PKG 221 or concurrently) and PKG 101) and (CEM 143 or CEM 251 or CEM 351) and (STT 200 or STT 201 or STT 315 or STT 351) and (MTH 124 or MTH 132 or LBS 118 or MTH 152H) R: Open only to sophomores or juniors or seniors or graduate students in the School

of Packaging. SA: PKG 320

Physical and chemical properties of plastics and their relationship to selection, design, manufacture, performance, and evaluation of packages.

330

Package Printing Fall. 3(3-0) P:M: PKG 221 R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging.

Methods of printing packages including copy preparation, design, electronic imaging, aesthetics, camera use, and effects of package materials. Production of printed packages including quality control, economics, and environmental considerations.

Packaging and the Environment 370

Spring. 3(3-0) P:M: Completion of Tier I writing requirement. RB: CEM 141 or CEM 151 or LBS 164 R: Not open to freshmen or sophomores.

Effects of packaging on environmental quality. Solid waste. Air and water quality. Laws, economics and energy. Resource use and conservation.

410 **Distribution Packaging Dynamics**

Fall, Spring. 3(3-0) P:M: PKG 322 and PKG 323 R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging. SA: PKG 310

Identification and measurement of hazards in physical distribution. Methods of protection against climate, shock, vibration, and compression.

Packaging Processes

Fall, Spring. 4(3-2) P:M: (PKG 322 and PKG 323) and (PHY 232 or PHY 232B or PHY 232C or LBS 272 or PHY 184 or PHY 182B or PHY 184A or PHY 184B or PHY 294H) R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging.

Integrated study of packaging and production operations, quality control, and organization and control of machines. Interrelationship of products, packaging, machinery layout and efficiency, and quality issues.

Robotics and Automotive Packaging

Fall. 3(3-0) P:M: MTH 124 or MTH 132 or LBS 118 or MTH 152H

Robotic systems: configurations, components, drive mechanisms, control and feedback, safety. Line inspection, vision systems, guided vehicle and storage retrieval systems, reusable and expendable packaging, container cleaning and identification and economics.

452 **Medical Packaging**

Fall. 4(3-2) P:M: PKG 322 or PKG 323 Special requirements for packaging pharmaceuticals and medical devices. Evaluation of package systems and packaging procedures.

455 **Food Packaging**

Spring. 3(3-1) P:M: PKG 322 and PKG 323 R: Open only to sophomores or juniors or seniors or graduate students in the Packaging major.

Food package systems related to specific products and processes. Product composition: problems and packaging solutions, shelf life considerations, and

Distribution Packaging and Performance 460 Testing

Spring. 3(2-2) P:M: PKG 410 R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging.

Interrelationships between packaging and distribution systems. Transportation, material handling, warehousing. Logistics and management systems. Performance testing and industry practices. Package container design and testing.

Packaging Economics

Fall. 3(3-0) RB: EC 201 or EC 202 Economic issues in packaging as they relate to policies of the firm and of government. Relationships between economic policy and societal issues.

Packaging Laws and Regulations

Spring. 3(3-0) RB: PKG 322 or PKG 323 R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging.

History and development of packaging laws and regulations. Relationships among law, government regulation and commercial regulation. Effect of current laws and regulations on packaging.

485 Packaging Development (W)

Fall, Spring. 4(4-0) P:M: (PKG 410 and PKG 415 and PKG 432) and completion of Tier I writing requirement R: Open only to seniors or graduate students in the School of Packaging.

Package development including selection, design and implementation of package systems for protection, distribution, merchandising, use and disposal.

Directed Studies in Packaging Problems

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: PKG 322 and PKG 323 R: Open only to sophomores or juniors or seniors or graduate students in the School of Packaging. Approval of department; application required.

Development of solutions to specific packaging problems. Supervised individual study.

Special Topics

Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 8 credits in all enrollments for this course.

Selected topics of current interest.

Senior Seminar

Fall, Spring. 1(2-0) R: Open only to seniors in the Packaging major.

Seminar on current packaging issues, business organization and operations, and accepted practices in a corporate environment.

493

Professional Internship in Packaging Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. A student may earn a maximum of 6 credits in all enrollments for any or all of these courses: ABM 493, AEE 493, ANR 493, ANS 493, CSS 493, EEP 493, FIM 493, FW 493, HRT 493, PKG 493, PLP 493, PRR 493, and RD 493. Approval of school; application required. P:M: PKG 322 and PKG 323

Supervised professional experience in the field of packaging offered through corporations and other businesses throughout the U.S.

801 **Packaging Materials**

Fall. 4(4-0) R: Approval of department. Physical and chemical properties of packaging materials; design, manufacture, performance and evaluation of packages.

Packaging Machinery, Distribution, and **Dynamics**

Spring. 4(4-0) P:M: PKG 801 R: Approval of department.

Packaging machinery and line operations, statistical process control. Transportation environment. Distribution packaging design and testing.

Advanced Packaging Dynamics

Spring. 3(2-2) RB: PKG 410

Shock and vibration. Distribution hazards and product fragility. Cushion performance and package design. Environmental measurement and simulation.

Packaging for Food Safety

Fall, Spring. 3 credits. Interdepartmental with Veterinary Medicine. Administered by Veterinary Medicine. RB: Enrollment in graduate program in related field. R: Open only to master's students in the Food Safety major or graduate students in the Packaging major or approval of college.

Current issues in packaging and food safety.

Packaging—PKG

Permeability and Shelf Life 815

Spring. 3(2-2) RB: MTH 124Q and MTH 132 and PKG 322 and PKG 323

Relationship between the storage life of packaged food and pharmaceutical products and the gas, moisture, and organic vapor permeability of packages in various environments.

Instruments for Analysis of Packaging Materials

Fall of even years, 4(3-2) RB: PKG 322 and **PKG 323**

Analytical methods for packaging including spectro-photometry and chromatography. Material identifica-tion and characterization. Migration and permeation measurements.

Polymeric Packaging Materials 827

Fall. 3(3-0) RB: PKG 323 or PKG 801 SA: PKG 825

Physical and chemical properties of polymeric materials and structures used in packaging. Relationship of properties to performance.

828 **Processing and Applications of** Packaging Plastics

Spring. 3(3-0)

Processing of packaging plastics: extrusion, coating, film, containers. Effects of processing variables on morphology and performance.

829

Packaging Plastics Laboratory
Fall. 1(0-2) Not open to students with credit in PKG 825.

Structure versus property relationships and plastics processing.

875 Stability and Recyclability of Packaging Materials

Fall of odd years. 3(3-0) RB: PKG 322 and **PKG 323**

Interactions between packaging materials and environments: corrosion, degradation, stabilization, and recycling. Impacts of packaging disposal.

888 Master's Project

Fall, Spring, Summer. 2 credits. R: Open only to master's students in the School of Packaging. Approval of school, application required.

Master's degree Plan B project. Completion of a project related to packaging issues.

890 Independent Study in Packaging

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 4 credits in all enrollments for this course. R: Open only to graduate students in the School of Packaging. Approval of department; application required.

Special investigations of unique packaging problems.

891 **Selected Topics**

Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 8 credits in all enrollments for this course. R: Open only to graduate students in the School of Packag-

Selected topics of interest to graduate packaging students.

899 Master's Thesis Research

Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to master's students in the Packaging major.

Master's thesis research.

Analytical Solutions to Packaging Design 985

Spring of even years. 3(3-0) RB: PKG 801 R: Open only to graduate students in the College of Agriculture and Natural Resources or College of Engineering or College of Natural Science. Approval of department; application required.

Analytical and quantitative techniques for packaging design and evaluation.

990 Independent Study in Packaging

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to Ph.D. students in the School of Packaging. Approval of department; application required.

Special investigations of unique packaging prob-

992 **Packaging Seminar**

Fall. 1(2-0) A student may earn a maximum of 3 credits in all enrollments for this course. R: Open only to graduate students in the School of Packaging.

Presentations of detailed studies on specialized aspects of packaging.

Doctoral Dissertation Research

Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 50 credits in all enrollments for this course. R: Open only to doctoral students in the School of Packaging.

Doctoral dissertation research.
