# SCIENCE AND MATHEMATICS **EDUCATION**

# **College of Natural Science**

# 120 Seminar in Integrated Science for Elementary Schools

1(1-1) Interdepartmental with Spring. Administered Teacher Education. Science and Mathematics Education. P: BS 110 or BS 111 or CEM 141 or PHY 231 or PSL 250 or GLG 201 or GEO 203 R: Open only to students in the Integrated Science Teaching major, the Special Education major, the Child Development major, the Elementary Teacher Education program, the 5th-vear teacher certification program, or approval of college.

SME

Exploration of major connecting themes in life sciences, earth science, and physical science as evidenced in the K-8 science curriculum and college science courses.

# 301

Science for Elementary Schools Fall, Spring. 3(2-2) RB: Completion of an ISB and ISB laboratory or ISP and ISP laboratory course. Completion of the majority of complementary studies coursework in science and math. R: Open only to students in the Elementary Teacher Education Program. SA: NSC 301

Topics in earth science, life science, and physical science explored through discussion, demonstrations, readings, presentations, and field trips.

# 320 Integrated Science for Elementary Schools

Spring. 3(2-2) Interdepartmental with Education. Administered Teacher by Science and Mathematics Education. P SME 120 and (BS 110 or LBS 144 or LBS 148 or BS 111 or LBS 145 or LBS 149 or PSL 250 or ZOL 355) and (PHY 231 or PHY 231B or CEM 141 or LBS 171) and (GLG 201 or GEO 203 or AST 207) R: Open only to students in the Integrated Science Elementary Teaching major. Not open to students with credit in SME 301.

Analysis of the concepts integrating science across life sciences, earth sciences, and physical sciences. Applications to the K-8 science curriculum

# 401 Science Laboratories for Secondary Schools (W)

Fall. 4(2-6) P: Completion of Tier I writing requirement. R: Open only to seniors in the Bachelor of Arts degree in Chemistry, or Biological Science-Interdepartmental major or Earth Science-Interdepartmental major or General Science-Interdepartmental major or Physical Science-Interdepartmental major or

their associated LBS majors. SA: NSC 401 Laboratory equipment, supplies, demonstrations, exercises, and safety. Care of live organisms. Disposal of biological and chemical wastes. Field Trips required.

#### 420 Integrated Science Research

Fall, Spring. 3(2-2) Interdepartmental with Teacher Education. Administered Science and Mathematics Education. R: Open to seniors in the General Science Secondary Teaching Major and open to seniors in the Integrated Science Elementary Teaching Major.

Research design and data analysis of individual research projects relevant to the K-12 science curriculum, integrating topics in life, earth, and physical science.

#### History of Mathematics 430

Spring. 3(3-0) P: MTH 133 and MTH 301 Development of mathematical thought from ancient times to the present, selected from Egyptian, Baby-Ionian, Mayan, Greek, Indian, and Arab contributions to mathematics and to the context of today's school mathematics curriculum.

#### 490 **Special Problems**

Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Approval of college.

Faculty directed individualized study of an interdisciplinary problem.

#### Special Problems for K-8 Teachers 600

Fall, Spring, Summer. 1 to 5 credits. A student may earn a maximum of 10 credits in all enrollments for this course. RB: Elementary teacher certification, 3 years teaching experience. R: Approval of college. SA: NSC 600

Supervised study of problems or issues in biological sciences, physical sciences, earth sciences or mathematical sciences.

#### 630 **Bridges to Science**

Summer. 2(2-1) R: Open to masters students in the Master of Arts for Teachers in General Science. Approval of college. SA: NSC 630

Scientific principles and concepts in integrative life, earth, and physical science.

# 800 Problems in Science or Mathematics for Teachers

Fall, Spring, Summer. 1 to 5 credits. A student may earn a maximum of 15 credits in all enrollments for this course. RB: Secondary certification in biological sciences, physical sciences or chemistry; secondary certification in Mathematics or Mathematics Education. R: Approval of college. SA: NSC 800

Supervised study of problems or issues in biological science, or physical sciences, or mathematical sciences.

#### 820 **College Student Cognition in Science**

Spring. 3(3-0) RB: At least 3 undergraduate courses in science

Introduction to research methodologies and findings relevant to college student cognition in science disciplines. Material from education, psychology, cognitive sciences, and the science disciplines will be used to reveal college student cognitive processes as they relate to science fields.

# 828

Physical Science I Summer. 3(2-1) RB: Elementary teacher certification, 1 year teaching experience. R: Open to graduate students in the Master of Arts for Teachers in General Science. Approval of college. SA: SME 651

The nature of matter and energy including energy transfer, density, and conservation of mass. Properties of elements, mixtures, and compounds.

#### 829 **Physical Science II**

Summer. 3(2-1) RB: Elementary teacher certification, 1 year teaching experience. R: Open to graduate students in the Master of Arts for Teachers in General Science. Ap-

proval of college. SA: SME 652 Electricity and magnetism, force and motion, heat and temperature, sound, and light.

#### 832 Earth Science I

Summer. 3(2-1) RB: Elementary teacher certification, 1 year teaching experience. R: Open to graduate students in the Master of Arts for Teachers in General Science. Approval of college. SA: SME 653

The solar system, including the sun, planets, earth, and its moon. Weather and the water cycle.

#### 833 Earth Science II

Summer. 3 credits. RB: Elementary teacher certification, 1 year teaching experience. R: Open to graduate students in the Master of Arts for Teachers in General Science. Approval of college. SA: SME 654

Rocks, minerals, and fossils and the physical and geological processes that form them.

### Life Science I 838

Summer. 3(2-1) RB: Elementary teacher certification, 1 year teaching experience. R: Open to graduate students in the Master of Arts for Teachers in General Science. Approval of college. SA: SME 655

Structure, function, genetics, and classification of organisms, including protists, plants, animals, and decomposers.

#### 839 Life Science II

Summer. 3(2-1) RB: Elementary teacher certification, 1 year teaching experience. R: Open to graduate students in the Master of Arts for Teachers in General Science. Approval of college. SA: SME 656

Interrelationships among and between organisms and their surroundings. Ecosystems, habitats, food chains, cycles, and pollution.

# Critical Content of School Mathematics: Numbers and Operations 840

Spring of odd years. 3(3-0) R: Open to graduate students.

Mathematical foundations of numbers, number systems, and related algorithms. Historical development. Development in school curriculum. Research on teaching and learning.

# 841 **Critical Content of School Mathematics:** Algebra

Fall of odd years. 3(3-0) RB: MTH 310 and MTH 320 R: Open to graduate students.

Mathematical foundations of algebra. Historical development. Development in school curriculum. Research on teaching and learning.

# 842 **Critical Content of School Mathematics:** Geometry

Spring of even years. 3(3-0) RB: MTH 330 or MTH 432 R: Open to graduate students.

Mathematical foundations of geometry. Instructional materials. Historical development. Development of geometry in school curriculum. Research on teaching and learning.

#### 861 **Chemistry for Teachers**

Summer. 3(2-1) RB: Secondary certification physical science, 1 year of teaching. R: Open to graduate students in the Physical Science-Interdepartmental major. Approval of college. SA: NSC 861

Intensive lecture and laboratory study of basic chemistry from a modern viewpoint.

#### 862 **Physics for Teachers**

Summer. 3(2-1) RB: Secondary certification in chemistry or physics or earth science or physical science, 1 year of teaching. SA: NSC 862

Intensive lecture and laboratory study of basic physics from a modern viewpoint.

#### 863 Earth Science for Teachers

Summer. 3(2-1) RB: Secondary certification in chemistry or physics or earth science or physical science, 1 year of teaching. R: Open to graduate students in the Physical Science-Interdepartmental major. Approval of college. SA: NSC 863

Intensive lecture and laboratory study of basic earth sciences from a modern viewpoint.

#### 865 **Technology for Teachers**

Summer. 2(2-1) RB: Secondary certification in chemistry or physics or earth science or physical science, 1 year of teaching. R: Open to graduate students in the Physical Science-Interdepartmental major. Approval of college.

Utilization and application of new technologies in secondary science classrooms.

### Integrated Science for Secondary 866 Teachers

Summer. 3(2-1) RB: Secondary certification in chemistry or physics or earth science or physical science, 1 year of teaching. R: Open to graduate students in the Physical Science-Interdepartmental major. Approval of college.

Development of class activities that integrate across the sciences: physics, chemistry, earth science, and biology.

# 870

Teaching College Science Spring. 2 credits. RB: One year of graduate study in a biological or physical science. R: Approval of college. SA: NSC 870

Philosophies of education. Ethnic, gender, and cultural issues. Designing a laboratory course. Problems of class size. Instructional technologies. Assessment and evaluation.

# 871 **Biochemistry and Cell Biology for** Teachers

Summer of odd years. 7(4-6) RB: Undergraduate degree in the biological sciences R: Open to lifelong graduate students. Approval of department; application required.

Review of basic principles in biochemistry and cell biology, and their application to current topics.

#### 874 **Field Ecology for Teachers**

Summer of even years. 7(4-6) RB: Undergraduate degree in the biological sciences R: Open to lifelong graduate students. Ap-

proval of department; application required. Review of basic principles of ecology and their application in a field setting.

#### **Teaching College Mathematics** 879

Fall of even years. 3(3-0) A student may earn a maximum of 6 credits in all enrollments for this course. Interdepartmental with Counseling, Educational Psychology and Special Education and Mathematics and Teacher Education. Administered by Science and Mathematics Education. RB: Past or concurrent mathematics teaching experience.

Curriculum materials, case studies, approaches to teaching and student learning of particular mathematics topics.

#### 889 **Research for Inservice Teachers**

Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 10 credits in all enrollments for this course. RB: Open only to inservice K-12 teachers with baccaulaureate degrees. R: Approval of college. SA: NSC 889

Research in faculty laboratories. Oral and written presentations.

#### 890 Independent Study

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Open to masters students.

Individualized study for master's level students.

#### Master's Thesis Research 899

Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 36 credits in all enrollments for this course. R: Open only to master's students in the College of Natural Science. Approval of college. SA: NSC 899

Master's thesis research.

#### Frontiers in Biological Science 901

Fall, Spring. 1 to 4 credits. A student may earn a maximum of 36 credits in all enrollments for this course. RB: Secondary certification in chemistry or physics or earth science or physical science or biology, 3 years teaching experience. R: Approval of college. SA: NSC 901

Weekend workshops with research faculty exploring background and latest findings in their area of research

#### 902 **Frontiers in Physical Science**

Fall, Spring. 1 to 4 credits. A student may earn a maximum of 40 credits in all enrollments for this course. RB: Open only to students with secondary teacher certification in chemistry or physics or earth science or physical science or biology and 3 years of teaching experience. R: Approval of college. SA: NSC 902

Weekend workshops with research faculty exploring background and latest findings in their area of research.

# 903 **Topics in Mathematics Education** Research

Fall of odd years. 3(3-0) RB: MTH 802A or MTH 802B SA: MTH 903

Research in mathematics education and its effect on policy, curriculum, and the teaching and learning of mathematics

# 926 Proseminar in Mathematics Education I Fall. 3(3-0) Interdepartmental with Counseling, Educational Psychology and Special Education and Mathematics and Teacher Education. Administered by Science and

Mathematics Education. Research on the learning and teaching of mathe-Teaching, teacher and student learning, matics. curriculum, and educational policy. Historical, philosophical, empirical, and theoretical perspectives.

#### 927 Proseminar in Mathematics Education II

Spring. 3(3-0) Interdepartmental with Counseling, Educational Psychology and Special Education and Mathematics and Teacher Education. Administered by Science and Mathematics Education. P: SME 926

Continuation of SME 926.

# **Design and Methods in Mathematics** 954 Education Research

Fall. 3(3-0) Interdepartmental with Counseling, Educational Psychology and Special Education and Mathematics and Teacher Education. Administered by Science and Mathematics Education. RB: SME 926 and SME 927

History, current trends, and issues pertaining to research design and methods in mathematics education research. Mathematics education research in the areas of policy, teaching, teacher learning, and student learning with particular attention to how features of research designs influence research findings.

#### Independent Study 990

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Open to doctoral students.

Individualized study for doctoral level students.

**Special Topics in Mathematics Education** 997 Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 18 credits in all enrollments for this course. RB: SME 903 or TE 950 or CEP 913 SA: MTH 997 Advanced topics in mathematics education.

**Doctoral Dissertation Research** 999 Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 120 credits in all enrollments for this course. RB: SME 926 and SME 927 and SME 954

Doctoral dissertation research.
