

JAMES MADISON College

Sherman W. Garnett, DFAN

James Madison College provides a liberal education in public affairs for undergraduates. This means, among other things, that the primary activity as a faculty and staff is undergraduate teaching. The College is dedicated to the highest standards of excellence, both for the students and the faculty and staff. The curriculum and individual courses are multi-disciplinary, cultivating in the students skills of rigorous thought, lucid prose writing, and articulate speech. The residential environment nurtures a collegium of scholars among students, faculty, and staff. The excellent resources of the wider University enrich the program as a whole. James Madison College established itself in 1967. Since then with an enrollment of approximately 1200 students, the College has graduated numerous Rhodes Scholars, Truman Scholars, Marshall Scholars, Fulbright Scholars, National Science Foundation Fellows, MSU's first Mitchell Scholar, and regularly represents a high percentage of Michigan State University's Phi Beta Kappa class.

Its undergraduate program leads to a Bachelor of Arts degree in one of four majors: Comparative Cultures and Politics, International Relations, Political Theory and Constitutional Democracy, and Social Relations and Policy. It offers a rigorous program with distinctive attention to written work, analytical writing, critical thinking, give-and-take class discussion and collaborative work. Students have an opportunity to study how public issues develop and how the varied public and private institutions of society function, in the United States and globally.

The faculty of James Madison College have been recruited from a number of inter-related fields: American studies, economics, history, sociology, political science and political theory. The College emphasizes teaching excellence, individualized attention to students and scholarly research in public affairs. Its courses are conducted as either lecture-discussion or collaborative classes in which student participation is encouraged and often expected. A typical class focuses on such issues as how globalization affects civil society, or how theories of justice evolve into systems of laws, or how a society's cultural and social values influence its economic development. In short, the emphasis

throughout the program is on the dynamics of public affairs and public decision making.

Competency in writing is strongly emphasized for all students in James Madison College. In addition to a required two semester First-year Writing Program, research papers and other writing assignments have been incorporated into the requirements for each of the fields of concentration and all James Madison College courses.

The College is an excellent choice for any students aiming at careers in government, politics, administration, business, foreign service, or considering post-Baccalaureate studies: pre-law students, students planning to pursue graduate study in one of the social science fields, business and public administration. Included in the James Madison College program is a concentrated junior or senior year Field Experience in which students work for an agency of government, a private organization, non-profit organization, journalism or a corporation. The full-time internship is intended to provide students with the opportunity to connect their education to the realm of practice. Placements are available throughout the United States and internationally.

The total enrollment in James Madison College is over 1200 students, so that the College is able to provide a **small college environment** on the Michigan State University campus. Faculty members devote a substantial amount of time to individual student advisement; as a result, programs of study are designed to satisfy the academic needs, intellectual curiosity, and career goals of each student.

In addition, the home of the College is Case Residence Hall, which includes not only the residence hall rooms of its on-campus students, but also faculty offices, classrooms, dining facilities, a College library, seminar rooms, and a computer laboratory. In the evenings, cultural programs, speakers, presentations and other extracurricular events are regularly scheduled. At the same time, the College's students are full members of the Michigan State University student body. They take approximately half their courses in other units of the University and enjoy all benefits of living on a large, bountiful campus.

Students admitted to Michigan State University are also admissible to James Madison College. Enrollments in the College are, however, limited. Prospective first year and transfer students should notify the Michigan State University Office of Admissions as early as possible of their desire to enroll in the College. Limited numbers of currently enrolled Michigan State University students may also be eligible to transfer into the College; such students are encouraged to contact the Director of Admissions in the College early in the Fall semester. Subject to space availability, students may transfer into the College or from the College to other programs until their junior year without delaying completion of their degrees.

ADDITIONAL MAJORS. Students who elect to pursue additional majors should notify the James Madison College Director of Academic Affairs or their adviser as early as possible in order to plan their academic program. For additional information, see the Additional Major entry in the Undergraduate Education section of this catalog.

Requirements for the Bachelor of Arts Degree in James Madison College

The University requirements for bachelor's degrees as described in the Undergraduate Education section of this catalog; 120 credits, including general elective credits, are required for the Bachelor of Arts degree in James Madison College.

The completion of the Freshman Writing Program (James Madison College 111 and 112) referenced in requirement 2. a. below satisfies the University's Tier I writing re-

The University's Tier II writing requirements for the James Madison College majors are met by completing courses as specified below:

Comparative Cultures and Politics: James Madison College 493 and any two of the following courses: James Madison College 320, 325, 361, 366, 372, 37, 385, 386, 387, 390, or 395. Those courses are referenced in item 1. in the statement on Comparative Cultures and Politics below.

International Relations: James Madison College 492 and any of the two elective courses required in International Relations. Those courses are referenced in items 1.a. and 1. c. in the statement on International Relations below.

Political Theory and Constitutional Democracy: James Madison College 370. 371, and 497. Those courses are referenced in item 1. a. in the statement on the Political Theory and Constitutional Democracy below.

Social Relations and Policy: James Madison College 380 and 498 and any two of the following courses: James Madison College 347, 375, 381, 382, 383, 384, 385, 386, 387, 390. Those courses are referenced in items 1. a. and 1. b. in the statement on Social Relations and Policy below.

The completion of the introductory public affairs course sequence (James Madison College 201 and 202) referenced in requirement 2. a. below satisfies the University's Integrative Studies requirement in the Social, Behavioral, and Economic Sciences. The completion of James Madison College 201 and 202 also satisfies the requirements specified in item 2. under the heading Integrative Studies in the Undergraduate Education section of the catalog. James Madison College 201 emphasizes both national diversity and international and multicultural diversity, and James Madison College 202 emphasizes international and multicultural diversity.

- The following requirements of James Madison College for the Bachelor of Arts degree. All of the courses that are used to satisfy University and College requirements must be graded on the numerical or Pass-No Grade system with the following exception: first-year courses in Russian, Japanese, or Chinese or in an African language may be graded on the Credit-No Credit system.
 - Required Courses:

| The Ja | mes N | Madison College courses listed above serve as a found | ation for the |

College's curriculum. Students should complete these courses during the first year of study.

Economics 201 and 202 provide a foundation for study in the major. Students should complete these courses during the first two years of study.

Students who are admitted to James Madison College with fewer than 4 credits that count toward the University's Integrative Studies requirement in the Social, Behavioral, and Economic Sciences must complete James Madison College 201 and 202. Students who are admitted to James Madison College with at least 4, but fewer than 8, credits that count toward the University's Integrative Studies requirement in the Social, Behavioral, and Economic Sciences must complete either James Madison College 201 or 202.

Language Requirement. Second year competency in a foreign language. This requirement may be satisfied by placing into a 300-level foreign language

- course based on a MSU placement test. Students are encouraged to complete a third year of study in the same language that is used to satisfy this requirement. Field Experience. Students meet this requirement by completing James Madison College 400 (5 to 9 credits) and 401 (3 credits). With the approval of the Col-
- lege, this requirement may be met by completing an alternative option. Major. One of the four approved majors described below. Each major combines courses in James Madison College and other units of the University. Students' programs of study must be approved by their academic advisers.
- James Madison College credit requirement: A minimum of 51 credits in James Madison College courses is required for students who enroll in the College as first–semester freshmen. A minimum of 41 credits in James Madison College courses is required for all other students; i.e., students who enroll in the College as transfer students from other colleges and universities, or who enroll in the College after having been enrolled in other programs at MSU. Students who have been admitted to the teacher certification program are required to complete a minimum of 41 credits in James Madison College courses.

Students may elect to complete a cognate in business. The re-

| quirements i | or the cognate are met by completing. | | | | | |

| | | | |

- e. One of the following two options (12 to 16 credits). Both the option and the related courses must be approved by the student's academic adviser.
 - (1) Four courses from one of the following disciplines or fields: anthropology, economics, English, history, international relations, philosophy, political economy, political science, social relations, sociology, or a foreign language. With the approval of the student's academic adviser, another discipline or field may be substituted. At least two of the four courses must be at the 300-level or above with the following exception: all of the courses in a foreign language must be at the 300-level or above.
 - (2) Four courses on a historically significant polity in another time and place. One course must be in History; the other three courses may involve other aspects of life in the polity. Two of the three courses may be in the language of the polity. Courses at the 300–400 level in the same language that was used to satisfy the College's foreign language requirement, or courses at the 100–200 level in another foreign language, may be counted toward this requirement.

Two courses at the 300–400 level in a related discipline (e.g., anthropology, economics, history, political science, psychology, or sociology) or in an approved related area (e.g., ethnicity and race, gender and women's studies, urban and metropolitan society, or U.S. politics) (6 to 8 credits).

SPECIALIZATION IN MUSLIM STUDIES

The Specialization in Muslim Studies, administered by James Madison College, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The specialization provides students with the opportunity for sustained study of Muslim societies and Islam in a range of disciplines and topics.

With the approval of the department that administers the student's degree program, courses that are used to satisfy the requirements of the specialization may also be used to satisfy the requirements for the bachelor's degree.

The student's program of study must be approved by the Muslim Studies coordinator prior to enrollment in any course.

Requirements for the Specialization in Muslim Studies

Students must complete the requirements specified below (16 to 32 credits):

CREDITS

 Completion of second-year college-level competency in Arabic or another language appropriate for Muslim Studies such as Persian, Turkish, Urdu, Bahasa Indonesia, Malay, or Swahili.

Students may petition the Muslim Studies Specialization coordinator for approval of an additional foreign language when it relates to a student's program of study. Students may also petition for a substitution for part or all of the language requirement, replacing the language credits with non-language courses from the course list below. An exception to the language requirement may be granted to students completing a relevant study abroad experience from an approved list of programs available from the Muslim Studies Specialization coordinator.

Students with majors in the College of Social Science should consult with their academic adviser to discuss alternatives to fulfillment of the language requirement in this specialization.

Five courses with Muslim studies or Islamic content selected from the two categories, with at least one from each category. Not more than one IAH or ISS course may count toward the five required courses. Students must contact the Muslim Studies Specialization coordinator for an updated list of approved courses prior to enrollment.

2.

3.

The following courses do not always contain content relevant to the Specialization in Muslim Studies. Before enrolling in any of these, please consult the Muslim Studies Specialization coordinator to see if, in the semester in which a student wishes to enroll, the course counts toward the specialization: Anthropology 422, 429, and 491; French 415, 416, and 447; History 201, 450, and 451; Integrative Studies in Arts and Humanities 211B; Integrative Studies in Social, Behavioral and Economic Sciences 315 and 330B; James Madison College 320, 324D, 325, 390, 391, 492, and 497; Political Science 344, 351, 354, 358, and 460.

Upon completion of the requirements of the Specialization in Muslim Studies, the student should contact the coordinator for the specialization and request certification for the specialization. After the certification is approved by the Dean of the College, the Office of the Registrar will enter on the student's academic record the name of the specialization and the date that it was completed. This certification will appear on the student's transcript.

SPECIALIZATION IN POLITICAL ECONOMY

The Specialization in Political Economy, administered by James Madison College, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The specialization is intended to instill a fundamental understanding of political economy and to allow students a choice of policy areas for focused study.

To achieve this breadth and depth of knowledge in political economy, students must complete at least 22 credits. Students in anthropology, economics, international relations, or public resource management will find this specialization especially appealing as preparation for graduate study or public-policy positions.

Upon completion of the requirements for the Specialization in Political Economy, the student should contact the Director of Academic Affairs of James Madison College and request certification for the completion of the specialization. After the certification is approved by the Director of Academic Affairs of James Madison College, the Office of the Registrar will enter on the student's academic record the name of the specialization and the date that it was completed. This certification will appear on the student's transcript.

SPECIALIZATION IN SCIENCE, TECHNOLOGY, ENVIRONMENT AND PUBLIC POLICY

The Specialization in Science, Technology, Environment and Public Policy (STEPPS) is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The specialization will expose students to policy-making processes at the local, state, national and international levels; examine historical trends and analyze social relationships; build a strong understanding of scientific principles used to formulate sound policy initiatives; and facilitate a linkage between policy-making and science, technology and the environment.

Students who are interested in this specialization must contact the coordinator for the Specialization in Science, Technology, Environment and Public Policy in James Madison College. The student's program of study must be approved by the STEPPS coordinator prior to enrollment in any courses counted toward the specialization. Study abroad programs or internships require prior approval of the coordinator to ensure their relevance to STEPPS' curricular goals.

With the approval of the department and college that administer the student's degree program, courses that are used to satisfy the requirements for the specialization may also be used to satisfy the requirements for a bachelor's degree.

Requirements for the Specialization in Science, Technology, Environment and Public Policy

| laaat tu | . a a f th | a face accuracy calcuted from the History Dhilosophy | |

At least two of the four courses selected from the History, Philosophy and Sociology of Science; Science Applications; or Public Policy requirements must be taken outside of the student's major department.

Upon completion of the requirements for the Specialization in Science, Technology, Environment and Public Policy, the student should contact the Dean of James Madison College and request certification for the completion of the specialization. After the certification is approved by the Dean of James Madison College, the Office of the Registrar will enter on the student's academic record the name of the specialization and the date that it was completed. This certification will appear on the student's transcript.

SPECIALIZATION IN WESTERN EUROPEAN STUDIES

The Specialization in Western European Studies, which is administered by James Madison College, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the specialization may also be used to satisfy the requirements for the bachelor's degree.

The Specialization in Western European Studies provides an opportunity for students to pursue a significant and coherent body of course work in the culture, history, politics, economics, and geography of Western Europe. Some of the courses in the specialization focus on individual countries, while other courses are comparative and cross—national.

A Steering Committee, composed of faculty from the colleges whose courses are included in the Specialization in Western European Studies, oversees the specialization. The student's program of study for the specialization must be approved in advance and in writing by the chairperson of the Steering Committee.

Students who elect the Specialization in Western European Studies are encouraged to complete courses that are related to Western Europe in partial fulfillment of the University Integrative Studies requirement.

Requirements for the Specialization in Western European Studies

The student must meet the requirements specified below:

Foreign Language Proficiency: The student must demonstrate proficiency in a Western European language at a level equivalent to the completion of five semesters of study at the university level. The fifth semester course must be a course in which the language is used to study the history, literature, politics, or culture of the related country, rather than a course that involves only grammar or composition. The results of the MSU foreign language placement test will be considered in determining whether or not the student has fulfilled this requirement.

4. Supervised Research Paper: The student must complete one of the following four options:

- Independent Study. A research paper on a topic related to Western Europe completed while enrolled in an independent study course of at least 3 credits.
- Overseas Study. A research paper completed while enrolled in a MSU overseas study program in Western Europe totaling at least 3 credits
- Internship. A research paper on a topic related to Western Europe completed while enrolled in a field experience or internship course of at least 3 credits.
- Capstone Course. A research paper on a topic related to Western Europe that is completed while enrolled in a capstone course of at least 3 credits.

Upon completion of the requirements for the Specialization in Western European Studies as specified by the chairperson of the Steering Committee, the student should contact the Dean of James Madison College and request certification for the completion of the specialization. After the certification is approved by the Dean of James Madison College, the Office of the Registrar will enter on the student's academic record the name of the specialization and the date that it was completed. This certification will appear on the student's transcript.

TEACHER CERTIFICATION OPTIONS

The following disciplinary majors leading to the Bachelor of Arts degree in James Madison College are available for teacher certification: international relations, political theory and constitutional democracy, and social relations. Students who complete the requirements for one of these disciplinary majors and the requirements for teacher certification are recommended for a teaching certificate in social studies. Persons with teacher certification in social studies are qualified to teach history, political science, geography, and economics.

Students with an International Relations disciplinary major must complete the following additional disciplinary courses: one of the History courses referenced in item 1. g. (1) under the heading International Relations above and Geography 151. These courses may be used to satisfy the degree requirement referenced in item 1. g. above, as well as the requirements for teacher

Students with a Political Theory and Constitutional Democracy disciplinary major must complete the following additional disciplinary courses: two Geography courses approved by the student's academic adviser. These courses may be used to satisfy the degree requirement referenced in item 1. d. under the heading Political Theory and Constitutional Democracy above, as well as the requirements for teacher certification.

Students with a Social Relations and Policy disciplinary major must complete additional disciplinary courses as specified be-

- **Geography**: One of the following two options:
 - Two Geography courses approved by the student's academic adviser.

¹ To be counted toward the requirements for the Specialization in Western European Studies, the content of this course must be specifically related to or focused on Western Europe

² A student may receive credit for only one of the following courses, and only one of those courses may be used to satisfy the requirements for the Specialization in Western European Studies: History 392 or James Madison College 387.

JAMES MADISON COLLEGE Teacher Certification Options

- b. James Madison College 384 and one Geography course approved by the student's academic adviser.
- 2. **History**: One of the following two options:
 - a. James Madison College 382 or 384 or 387.
 - One History course approved by the student's academic adviser.

These courses may be used to satisfy the degree requirements referenced in items 1. b. and 1. c. under the heading **Social Relations and Policy** above, as well as the requirements for teacher certification.

James Madison College 281, which is required for the Social Relations disciplinary major, also partially satisfies the history requirement for teacher certification.

Students who elect one of the disciplinary majors referenced above must contact the James Madison College Director of Academic and Student Affairs.

For additional information, refer to the statements on the disciplinary majors referenced above and to the statement on TEACHER CERTIFICATION in the Department of Teacher Education section of this catalog.

JAMES MADISON COLLEGE 3 + 3 OPTION

James Madison College, in collaboration with MSU/College of Law, offers an opportunity for selected JMC students to earn a baccalaureate degree after satisfactory completion of a minimum of 91 credits at Michigan State University and a minimum of 29 credits through subsequent enrollment at MSU/College of law.

Only students who matriculate as first-year students at James Madison College may pursue this option. Students interested in this option should consult with their academic advisers during the first year in the college.

Admission to the MSU/College of Law component of this program is limited to a small number of students who complete the specified University and college requirements and who earn a GPA and LSAT score that is acceptable for admission to MSU/College of Law.

All students in this program will complete a minimum of 91 credits at Michigan State University, at least 47 of which (not to include James Madison College 400 and 401) shall be James Madison College credits. The requirements for the program are as follows:

- Completion of the All University-level graduation requirements, including integrative studies, mathematics, and writing.
- Completion of the All-College required courses, including James Madison College 111, 112, 201, 202; Economics 201 and 202; and second-year competency in a foreign language.
- Completion of the requirements for one of the Madison fields of concentration.
- Completion of a minimum of 29 credits at MSU/College of Law

Upon satisfactory completion of the specified MSU/College of Law credits, students in this program will be awarded the Bachelor of Arts degree.
